

## **Meeting set to discuss Dedeaux Road widening**

*December 7, 2012*

GULFPORT—A town hall meeting has been set for Thursday to discuss the road improvements and widening plan for Dedeaux Road.

Councilman R.Lee Flowers will be joined by other city officials and community leaders at the Orange Grove Community Center to give an update on the Dedeaux Road project in order to keep the public informed of the current progress and plan for the project.

In addition, Councilman Flowers will introduce representatives from the city's Legal Department and contracted legal professionals that will assist the city with property acquisitions.

"Throughout this process the city has made a great effort to work hand and hand with citizens who will, in one way or another, be affected by this project," Flowers said. "This is yet another way we are reaching out to reduce and eliminate the anxiety of property owners and tenants."
